

BOSHAM WI

PRESIDENT: JENNIFER FIDLER - 01243 574033

E-MAIL:- jenniferfidler@f2s.com

Bosham WI is very important part of Bosham Village life. Our membership represents a wide range of ages which in itself brings huge experience and an enormous range of talent, characters and personalities. However the most important aspect of Bosham WI is the friendship, support and caring aspects which we cherish and nurture.

Our Programme of Speakers 2012

January Valerie Outram – Bee-Keeping

February Southborne Lions –Boxes for Belarus

March Richard Williamson – Kingley Vale

April Alan Wood – 40 years of Weald & Downland Museum

May Resolutions Meeting & Hospice Care Awareness

June Carole Ball – Arundel town & Castle

July Jane Fowler – Stained Glass, talk & demo

August No meeting

September Mike Whittle – Skylab, Science & Medicine in Space

October Geoff May – History of Ordnance Survey maps

November AGM

December Jane Windsor – Christmas Past at House of Fraser

Our WI **Sub-Groups** are very popular with our members and illustrates how active our WI is with lots going on right through the month. We are not solely a Monthly Meeting if you are interested in further activities we have it or if not, if there is support, we will get it going!

ART - Art group meets every week to explore various mediums of drawing and painting. 'Can't do that' is not an expression allowed in Bosham WI. 'Have A Go' is much more acceptable.

BOOKS - Meets at six-weekly intervals in members houses and it seems to have established an internal lending library. Books read and discussed range through fiction, non-fiction, classics, travel, biographies and autobiographies. It was found that tastes differed immensely.

CRAFT - Craft is a tradition of WI, still important and relevant, such amazing talent still alive and well in the Village.

DISCUSSION - Many opinions are expressed and views exchanged and it has often been found that someone in the group has a particular experience of the topic which has made the gatherings more interesting.

MAH- JONG - Learn to play this old and fascinating game in light hearted company. Introduced three years ago this is a very popular group.

MUSIC LOVERS - This group started in 2002 and is well supported. The group meets to listen to and to talk about all types of classical music - the sort that might be heard on Classic FM.

SCIENCE - The Chichester Science Group brings together many of the Institutes around Chichester - meeting in The Fishbourne Centre.

SCRABBLE - Our new fledgling group, just started.

WALKING GROUP - The walking group was formed in 2001. A walk usually covers between 5 and 6 miles and there are – inevitably – some steep hills to climb.

Visitors are welcome at our monthly meetings contact Jennifer Fidler, contact see above.
